

Dear Patient,

Thank you for selecting us as your personal dental health care team!

All of us at Millway Dental are looking forward to meeting you at your scheduled visit. We view our patient relationships with a deep sense of responsibility. A major part of that responsibility is to help our patients understand and plan for their oral health. We strive to give each patient the best quality care in every respect and we are constantly updating our knowledge and techniques in order to ensure just that!

We will begin by completing a medical and dental history, taking necessary records and completing an assessment of your present dental condition and treatment options. We will discuss with you the type of treatment plan that would best meet your needs. If you or your spouse have dental insurance benefits, please provide any information you have available, or benefits plan booklet (available through your employer) so we can help you navigate through any questions.

We recognize the importance of your personal schedule and will plan your appointment to effectively utilize your time. Please plan to be with us for approximately 1-1 ½ hours on your first visit.

Again we welcome you as part of our dental family!

Sincerely,

Millway Dental
